Q1. Which camera setting controls the amount of light entering through the lens?

- a) ISO
- b) Aperture
- c) White Balance
- d) Focus Mode

Q2. What does ISO control in a camera?

- a) Lens focal length
- b) Image brightness/sensor sensitivity
- c) Shutter movement only
- d) Zoom level

Q3. A fast shutter speed is mainly used to:

- a) Blur moving objects
- b) Increase color saturation
- c) Freeze motion
- d) Reduce image size

Q4. Which composition technique divides the frame into nine equal parts?

- a) Leading Lines
- b) Symmetry
- c) Rule of Thirds
- d) Framing

Q5. Portrait photography primarily focuses on capturing:

- a) Buildings
- b) Wildlife
- c) Human subjects
- d) Landscapes

Q6. Proper lighting in still photography helps to:

- a) Reduce battery life
- b) Improve image quality
- c) Increase file size only
- d) Change camera model

Q7. Before flying a drone, the operator should first:

- a) Increase speed immediately
- b) Check weather and battery status
- c) Delete previous images
- d) Change memory card

Q8. Which factor can significantly affect drone stability?

- a) Wind speed
- b) Camera brand
- c) Lens cap color
- d) File format

Q9. The primary purpose of GPS in drones is to:

- a) Improve sound quality
- b) Track and stabilize location
- c) Change lens aperture
- d) Compress images

Q10. Which file format is commonly used for high-quality image editing?

- a) JPEG
- b) PNG
- c) RAW
- d) GIF

Q11. Cropping an image is used to:

- a) Add audio
- b) Remove unwanted areas
- c) Increase battery life
- d) Change camera settings

Q12. Backup of digital images is important to:

- a) Reduce lens weight
- b) Prevent data loss
- c) Increase shutter speed
- d) Improve focus

Q13. A photography portfolio is mainly used to:

- a) Store camera batteries
- b) Showcase skills and work samples
- c) Edit videos
- d) Print photographs only

Q14. A good portfolio should contain:

- a) Only one photograph
- b) Random images
- c) Best and relevant work samples
- d) Empty pages

Q15. Updating a portfolio regularly helps to:

- a) Show recent achievements and skills
- b) Reduce internet speed
- c) Increase camera weight
- d) Change image resolution

Q16. Aperture is measured in:

- a) Pixels
- b) f-stops (f-numbers)
- c) Megabytes
- d) Lumens

Q17. Electrical cables at the workplace should be:

- a) Left loose on the floor
- b) Properly organized and secured
- c) Hidden under water
- d) Removed permanently

Q18. In case of a fire emergency, the first action should be:

- a) Panic
- b) Ignore the alarm
- c) Follow emergency procedures and evacuate safely
- d) Continue working

Q19. Effective communication requires:

- a) Listening carefully
- b) Interrupting others frequently
- c) Avoiding eye contact
- d) Speaking loudly only

Q20. A professional photographer should always:

- a) Deliver poor-quality images quickly
- b) Ignore client instructions
- c) Meet client requirements while maintaining image quality and ethics
- d) Share client photos without permission
